Mosty Brothers Nurseries

With pleasure we desire to thank all of our customers of the past for their patronage and good will, which has made us successful during more than twenty-five years of increasing business in Kerr County.

Our policy is "to grow the best a little better," and we use our best efforts and resources to secure this result. With our natural advantages of a soil rich in minerals, the use of only high class labor, under our personal care, in the growing, grafting, pruning, cultivating and last, the digging and packing, we are prepared to supply the very best that money can buy. We pledge you absolute honesty in business.

We do not sell "cheap trees," but will meet competition of any reliable nursery in prices, quality being considered.

God's first gift to man was a garden and man's first work was to dress it and keep it, and even to this day we believe those who eat more of Nature's bounty and less meat will be healthier and longer lived.

We respectfully solicit your business.

Yours truly,

MOSTY BROTHERS.

ORDER EARLY—While we have a more complete stock than for several years past, it will be to your advantage to order at once. The chances of success are much better when planting is done at the right time. We cannot come to solicit business from every one, and ask that you will write us at once.

WE PAY EXPRESS to railroad point when remittance accompanies orders for \$5.00 or more, excepting on balled stock. We expect to deliver by truck to San Antonio and other nearby towns. Our larger grades of trees are too bulky to be sent by parcel post. Small size trees with tops cut off, roses, berry, grapes and most shrubs can be sent by mail.

WE GUARANTEE all our stock to be vigorous and healthy, well packed in good condition to grow and true to name. Should any prove otherwise we will replace same free of charge, or return the amount of the original purchase price received by us, but it is mutually agreed that we assume no further responsibility.

WE ARE LOCATED in Center Point, on the San Antonio Road. We have our commercial orchards here, also our propagating plant and a complete stock of evergreens and ornamentals. We are also located three miles southeast of Kerrville on the Bandera Road. We grow here our fruit tree stock, also complete line of roses, evergreens and ornamentals. We will be pleased to have you visit us and inspect our stock. You may make your selection of plants and we will mark and deliver them to you at the proper time. Visitors are always welcome.

OUR PRICES—When comparing with others, please consider the size of the tree and plants that we offer. Our largest size fruit trees are large enough to bear, while our medium size stock are larger than are usually sent out by nurserymen as extra large. Even our smallest trees are on two-year-old roots and are as large as many offer as

two-year-old trees. We intend to give our customers full value for their money. We grow the very best varieties, and by the most efficient methods regardless of cost.

TERMS CASH on or before delivery, payable at Kerrville, Texas, or Center Point, Texas.

INSPECTION CERTIFICATE of health from the State will be on every shipment. Our trees are absolutely free from root diseases, scale, etc. Our stock is native grown and adapted to the soil and climate.

Our Landscape Service

Keep in mind when planning your grounds that the one desirable feature is the open center for the lawn. The foundation planting ties the building to Nature (house to ground). In foundation planting around buildings at corners, or open spaces should be used as high points in planting. Select shrubbery which takes a tall pyramidal or upright form for planting at such places. Then graduate sideways and to the front, with more dwarf and lower growing shrubs, using choice, distinctive specimens at entrance. This beautifying of the home involves less expense than one is inclined to believe when beholding the results. It is more a matter of good judgment and good taste than a "big purse." No equal amount of money invested will add as much to the value of property as a landscape planting of evergreen shrubbery and trees, and with plants adapted to the purpose, will increase in beauty and value with age. Any other improvement will deteriorate in value each year. You cannot invest your money at a greater increase even though you wish to sell your property. One hundred dollars invested in nursery stock, well cared for, will increase the sale value of your property and bring a buyer where otherwise he would not be attracted. An evergreen planting is permanent, not requiring an annual expense of planting, and being in full foliage twelve months of the year. Annual plantings only make a display about six months in the year.

Elaborate plantings should not be undertaken without the aid of a landscape architect. We are affiliated with the most competent landscape architects in the South and are equipped to handle the most elaborate plantings in the most modern manner. Serving you in this way we can save you money by using only the right plants in the right places, thus getting the desired results in the most economical way. If you wish we can take complete charge of the planting as well as the planning of your grounds, giving you a finished job. On less extensive plantings we will be glad to advise you and help lay out your grounds in a very pleasing way, and for this we make no charge where we furnish the stock for the planting. We want you to feel free to call on us at any time, and we will gladly go over the matter with you, and you will in no way obligate yourself.

FRUIT DEPARTMENT—PEACHES

We grow and test hundreds of varieties and offer you only the best bearing varieties in this list.

For the country from San Antonio south, while other varieties are also profitable, we recommend especially the Japan Dwarf Blood, Honey, Pallas, Imperial, Smith and Pallas Cling, as these are the surest and heaviest producers.

From San Antonio north, the above named are not to be recommended excepting the Pallas.

High locations are preferable to bottom land for peaches. The mid-season and later kinds are best for canning and preserving.

	Price			
	each	doz.	100	1,000
Largest, 2 yr., 5 to 7 ft.	\$1.00	\$10.00	\$65.00
Medium, 2 yr., 4 to 6 ft.	.75	7.50	50.00	\$400.00
Best, 1 year, 3 to 4 ft.	.50	5.00	35.00	300.00
Medium, 1 yr., 2 to 3 ft.	25.00	200.00

Earliest Ripening Varieties

MAYFLOWER—Large red semi-cling, best quality, heavy and sure bearer, vigorous grower, May.

GREENSBORO—Juicy, white, good bearer even farther south.

JAPAN DWARF BLOOD—Large blood red, free, tree dwarf grower, better in South Texas, May.

June Ripening, in Order of Ripening

TRIUMPH—Earliest freestone, latest bloomer and heavy bearer, yellow, medium size, good flavor.

HONEY—Bears heavy in South Texas. Very sweet and juicy, white meat, free. First of June.

MAMIE ROSS—Large, semi-cling, white flesh.

CARMEN—Big, handsome, highly flavored, free, late bloomer, heavy bearer, vigorous tree. Last of June. This is one of the very best peaches we offer.

PALLAS—Sweet as the Honey, but larger and later ripening, also later bloomer; bears well here and very prolific farther south. One of the very best market peaches for South Texas planters.

PALLAS CLING—Same as Pallas, but a cling.

July Ripening

FAMILY FAVORITE—Large, sweet, white, free, soft, juicy.

ELBERTA—Most popular peach grown for eating, canning and shipping; largest and finest freestone. Tree vigorous grower. July 15th.

ELBERTA CLING—Like Elberta, but a highly flavored cling.

TENA or NEW ELBERTA—Claimed to bear better than Elberta. Yellow flesh, free, good quality.

CARPENTER—Best white cling for sweet pickles and preserves. Sure and heavy bearer. Last of July.

IMPERIAL—Large, juicy freestone, white flesh, good flavor, good market peach for the South.

SMITH—Introduced and highly recommended by Mr. Ferdinand Miller of Somerset, Texas. Freestone. July 15th.

August Ripening

SYLPHIDE—A fine rich, juicy white cling; very prolific.

INDIAN CLING—The old-fashioned red-meated Indian peach.

KATY—Highly colored red, very attractive, large and very prolific; good flavor. August 15th.

LATE ELBERTA—Large yellow freestone, finest flavor, firm, good shipper, sure bearer and very productive. Tree vigorous grower. Last half of August.

September Varieties

YELLOW SEPTEMBER FREE—Large, fine flavored yellow peach, sure and heavy bearer; fine for market or home use; firm meated; tree vigorous. First part of September.

YELLOW SEPTEMBER CLING—Same as above but a cling; juicy.

STINSON OCTOBER—Large white cling, red check; late bloomer and sure bearer; prolific; tree vigorous.

PLUM TREES

No finer fruit grows for preserves, jams and jellies; and no trees will grow faster and bear sooner. The Advance, Bruce, Gonzales, Excelsior, Nona, Burbank, Satsuma and Wickson are very profitable market plums south of San Antonio. For sandy soil we grow these on plum roots, especially adapted to deep sand.

	Price			
	each	doz.	100	1,000
Largest, 2 yr., 5 to 7 ft.	\$1.00	\$10.00	\$65.00
Medium, 2 yr., 4 to 6 ft.	.75	7.50	50.00	\$400.00
Best, 1 year, 3 to 4 ft.	.50	5.00	40.00	300.00
Medium, 1 yr., 2 to 3 ft.	25.00	200.00

Varieties, in Order of Ripening

ADVANCE—Very large, bright red, firm; tree long lived, robust, not subject to disease; one of the very best market plums for the South; May.

BRUCE—Large, red early plum; productive and good seller; tree vigorous and hardy; for the South.

ABUNDANCE—Large, glowing plum, meaty; tree vigorous, upright grower; late bloomer; June.

GONZALES—Large, red, juicy; good shipper; tree good grower; very productive for market; a money-maker. June.

SANTA ROSA—Large, deep rich purple when ripe, firm; good shipper; tree fast, upright grower.

SHIRO—Large, yellow, juicy and sweet; fast grower. Ripe in June.

HAPPINESS—Large, red juicy plum; very profitable for market; ripens over a period of several days; a good bearer and seller; tree fast grower; June.

EXCESIOR—Red with white dots; very productive; a good market plum; tree hardy long lived. This variety does well to the coast. Last of June.

NONA—Good quality, juicy, bright red, large; excellent for eating and market; very prolific; tree long lived, robust, not subject to disease; June.

SATSUMA—Blood red flesh, firm, good size; July 1st.

BURBANK—Large, firm, red with yellow meat; youngest and heaviest bearer; not subject to worms; tree good grower, weeping habit. Our surest plum.

NORMAND—Yellow Burbank; same as above, except yellow. July 15th.

ROBINSON—Red, medium size. Like wild goose; late bloomer.

WICKSON—Largest size, yellow meat, firm, rich flavor; upright grower; Japanese variety; July 15th.

CHERRY TREES

Prices same as for plum trees.

COMPASS—Late bloomer, medium size, red; ripe in June.

EPOCH—Red, firm yellow meat; late bloomer.

PEARS

The pear is one of the surest and most productive of tree fruits, as the blooms will endure heavy frosts. They require deeper soil than peaches and plums, and low and wet places are suitable. They grow to be very large and are long lived trees. The LeConte, Garber and Keiffer are very profitable market varieties.

	Price			
	each	doz.	100	1,000
Largest, 2 yr., 5 to 7 ft.	\$1.00	\$10.00	\$65.00
Medium, 2 yr., 4 to 6 ft.	.75	7.50	50.00	\$400.00
Best, 1 year, 3 to 4 ft.	.50	5.00	40.00	300.00
Medium, 1 yr., 2 to 3 ft.	25.00	200.00

Varieties

LE CONTE—Medium size, bell shape, mellow and sweet; bears young; very prolific; first part of Aug.

GARBER—Very large, juicy, some acid; excellent for eating; tree tall, robust; last part of August.

KIEFFER—Large size, very hardy and prolific; best for market and preserves; picked in October, they get mellow and juicy; fine flavor; tree bears very young; hardy and blight proof. Sept. and Oct.

APPLES

Apples bloom very late and are seldom killed by frost, and some varieties are very reliable bearers where soil conditions are favorable in the country to the north and west of San Antonio. They need deep soil and good cultivation or irrigation. Do not plant them where cotton dies from ROOT ROT.

	Price			
	each	doz.	100	1,000
Largest, 2 yr., 5 to 6 ft.	\$1.00	\$10.00	\$ \$
Medium, 2 yr., 4 to 6 ft.	.75	7.50	50.00
Best, 1 year, 3 to 4 ft.	.50	5.00	30.00
Medium, 1 yr., 2 to 3 ft.	20.00

Varieties, in Order of Ripening

EARLY HARVEST—Large, yellow, mellow apple; bears well; tree strong grower; ripens last of June.

SAN JACINTO—Very large, red; fine quality; July 1st.

HELM—Healthy grower, medium size, red with white dots.

JONATHAN—One of best known summer apples.

WELTNER—Bright red, regular and abundant bearer, fruit of most excellent quality. Introduced and highly recommended by Mr. Otto Weltner, at the Old Camp Verde Fort, Kerr County, Texas.

BLEDSE—Our best and heaviest yielder; very large, of fine quality; tree vigorous; ripe in August.

LINCOLN—Medium size, dull red; best variety to the south; upright growth; bears very young.

If you have room for only two apple trees in your orchard, plant Lincoln and Bledsoe.

Winter Varieties

If you live in the "Hill Country" and have sub-irrigated or irrigated land, these later as well as the summer varieties will do well. We know trees in Kendall, Gillespie, Bandera, Kerr and other counties that are very old and have been heavy producers.

We offer these varieties: DELICIOUS, GANO, ARKANSAS BLACK and MAMMOTH BLACK TWIG.

TRANSCENDENT—Crab Apple, round, yellow, shaded with red; early and abundant bearer; fast grower; nothing better for pies, jellies and apple-butter.

APRICOTS

The yard is the best place to plant apricots. They are pretty trees and bear better if not cultivated. Trees are fast growers. Ripe in June.

		—Price—	
		each	dozen
Largest, 2 year,	5 to 7 ft.	\$1.00	\$10.00
Medium, 2 year,	4 to 6 ft.	.75	7.50
Best, 1 year,	3 to 4 ft.	.50	5.00

Varieties

REAL—A Kerrville variety; has bourne well.

CLUSTER—Grows well and bears young; late bloomer.

SHEREDIN—Large, good quality robust tree.

FIGS

Figs grow and bear well if the soil is rich and there is plenty of moisture. Drouth often causes the fruit to drop off. Plant on the NORTH side of buildings, and other protected places.

		—Price—		
		each	dozen	per 100
Best, 2 year,		\$.50	\$5.00	\$35.00

Varieties

CELESTIAL—Small, but very sweet, blueish color, very productive; stands cold well.

MAGNOLIA—Very large, rich straw color; the most profitable planted in the Coast Country.

GREEN ISCHIA—Large, sweet, greenish white; fast grower.

BROWN TURKEY—Large, very sweet; nearly everbearing, bears very young; will bear the first summer, after being froze down; very hardy and robust.

JAPAN PERSIMMONS

The persimmon does well on heavy or sandy land with plenty of moisture. Hard to transplant, so the tops should be cut off at 18 to 24 inches and the soil mounded up a foot or more around the tree.

		—Price—	
		each	dozen
Largest, 2 year	4 to 5 ft.	\$1.00	\$10.00
Medium, 2 year	3 to 4 ft.	.75	7.50

Varieties

TANE NASHI—Large, almost seedless, yellow, cone-shaped.

TRIUMPH—Bright yellow, tomato-shape; medium size.

POMEGRANITE

		—Price—	
		each	dozen
Best, 2 year	4 to 5 ft.	\$.75	\$ 7.50
Medium, 2 year	3 to 4 ft.	.50	5.00

Fruiting—The best, sweet variety.

MULBERRY TREES

The mulberry is a fast growing shade tree and bears an abundance of fruit. Good for hen yards.

		—Price—	
		each	dozen
Largest, 8 to 10 ft. trees		\$1.00	\$10.00
Best, 6 to 8 ft. trees75	7.50
Medium, 4 to 6 ft. trees50	5.00

Varieties

RUSSIAN—Best for quick shade.

TRAVIS—Large fruit, very prolific; makes good shade.

NON-BEARING—Makes a quick shade; long lived tree.

PECANS

We grow the very best EGG SHELL varieties for Texas planting. The pecan will grow and bear well on any soil, even though it is shallow, if the soil is well enriched and given plenty of water. To do well the pecan must have its top in PERPETUAL SUNSHINE and the roots in PERPETUAL MOISTURE. It is best to dynamite the holes if the soil is shallow. Our trees are grafted from bearing trees, and come into bearing several years younger than the ordinary trees. Pecans should be planted around every home and farm. For yard planting large size trees are recommended. On large trees keep the trunks wrapped the first summer and soak thoroughly when watering, once a week.

	Price	
	each	dozen
Branched trees, 8 to 10 ft.	\$5.00	\$50.00
Not branched, 6 to 8 ft.	3.00	30.00
Not branched, 4 to 6 ft.	2.50	25.00
Not branched, 3 to 4 ft.	2.00	20.00
Not branched, 2 to 3 ft.	1.25	12.50

Varieties

TEXAS PROLIFIC—Young and abundant bearer; large nut and thin shell; tree spreading habit.

NEW MOSTY—Native, thin shell, medium size, good bearer.

DAISY—Long, thin shell, bears young and abundantly; needs rich soil and abundance of water.

STUART—Best known of the standard kinds; large nuts, tree sturdy, upright habit; needs plenty water.

SUCCESS—Very largest, thin shell nut; recommended highly; vigorous, upright tree; not subject to Rosette or Die Black; fine for yard planting.

SCHLEY—Large, long nut, thin shell, cracks easily, fine flavor; luxuriant foliage and rapid growth.

BURKETT—A new variety, highly recommended.

GRAPE VINES

Grapes are native to our soil and climate and many varieties succeed well. However, the Northern and California kinds are difficult to grow. Grapes bloom very late and often bear full crops when other fruits are scarce. Sandy or soil underlaid with clay are best. The Black Spanish and Herbe-mont will grow almost anywhere.

	Price		
	each	dozen	per 100
Strong, 2 yr. plants	\$.50	\$4.00	\$30.00
Strong, 1 yr. plants30	3.00	20.00

Varieties

R. W. MUNSON—Black, very sweet, large berry and bunch; best for arbors and fruit; ripe first part of July.

ARMALAGA—White, large berry, handsome bunch; fine flavor, good shipper; vigorous grower.

RONALDO—Long, large clusters, white berries; fine table grape and for market; strong grower.

CARMAN—Black, medium berry, large bunch; very reliable and productive; good grower and very hardy.

EDNA—Large clusters of large white berries of best quality; the finest grape we offer; good grower.

BLACK SPANISH—A wine grape, but good for grape juice and jellies; grows well on any soil; arbor grape.

HERBEMONT—Like Black Spanish, but red juice and small, sweet berries; fine for arbors; ripe in August.

BLACKBERRIES and DEWBERRIES

Berries are native to our soil and with good cultivation will succeed even without irrigation. Sandy or clay sub-soil land are best. We plant close together in rows wide apart. They come in early when fruit is most relished.

—Price—

	dozen	per 100
Strong, well-rooted plants	\$1.00	\$5.00

Varieties

ROGERS—Earliest variety, but also blooms early.

HAUPTBERRY—Medium size berry, sweet blackberry and dewberry cross; most vigorous grower of all.

McDONALD—Much larger berry than Haupt. Always plant near other varieties to pollenize; good grower.

AUSTIN IMPROVED—Very large berry; sure bearer; a heavy yielder for market and home use.

DALLAS BLACKBERRY—Very good; ripens after dewberries.

STRAWBERRY PLANTS

Strawberries require plenty of water and care. Plant in rows about one foot apart for garden culture. Best to plant these in the fall.

—Prices—

	100	1,000
--	-----	-------

Strong, well-rooted plants	\$1.50	\$10.00
----------------------------------	--------	---------

KLONDYKE—Bears for three months; nothing better.

ORNAMENTAL DEPARTMENT

ROSES

We list here the choicest varieties known today. All of our plants are field grown and hardy. These plants have all bloomed the past summer and will bloom the first spring after planting. All the varieties we grow are everblooming. They are the best of the Tea roses and everblooming Hybrids.

How To Plant

Always plant trees deeper than they stood in the nursery row and cut off tops to within six inches above the ground after planting. After watering well, mound up well around the plants with loose dirt. Roses are surer to grow if planted this way in December, January or February and will grow off faster than roses planted later.

—Price—

Everblooming Red Varieties

ETOILE de FRANCE—Deep, intense red, large, handsome in bud and open flower; very hardy, strong grower.

MADAM MASSON—Very large handsome blooms; better than American Beauty; upright, strong grower; everblooming.

AMERICAN BEAUTY—Famous old variety.

RHEA REID—Very fragrant, long buds, large flower; is the brightest crimson scarlet; blooms continuous.

EDWARD MAWLEY—HT—Dark, velvety crimson, globular buds opening into immense blooms; one of the best.

RED RADIANCE—HT—Buds large, perfect form, bourne on long stems; splendid open flowers; very hardy. Best of all red roses.

Shades of Pink Everbloomers

LA FRANCE—HT—Popular silver pink, very fragrant.

J. L. MOCK—HT—Largest size, magnificently formed, deep and double, fragrant, bright rich pink; very hardy plant.

RADIANCE—HT—A beauty in bud and bloom, lovely, light silvery pink; exceedingly vigorous and disease resisting; very hardy; people always admire this rose when visiting our nursery in the summer. Best pink rose grown.

COLUMBIA—HT—Very large buds and perfect open flower, fragrant; clear imperial pink; free bloomer.

WM. SHEAN—HT—Immense in bud and flower, perfect form, petals shell shaped, pure pink; free blooming.

Yellow Shades—Everbloomers

ALEXANDER HILL GRAY—T—Large pointed buds, perfect open flower, yellow shading to pink; free bloomer.

LADY HILLINGDON—T—Deep golden yellow, long pointed buds; grows and blooms abundantly.

SUNBURST—HT—Intense shade of golden orange and yellow, brilliant in effect; buds large and well formed; hardy, free bloomer.

White Everbloomers

BRIDE—T—Well known rose. Almost pink in hot weather.

KAISERIN AUGUSTA VICTORIA—HT—Creamy white, exquisite buds, perfect flower, fragrant; very hardy.

SNOW FLAKE—T—Very hardy, medium size, pure white.

WHITE LA FRANCE—HP—Large, white with pink glow, very fragrant, perfect flower; strong upright growth.

WHITE COCHET—T—Large handsome buds, waxy white, tinted with bright pink on outside; strong grower.

Pink, Bronze and Yellow Blends

LOS ANGELUS—PE—Rich, flame pink, shaded golden yellow; a California product; new variety.

MAMAN COCHET—TE—T—Pink and bronze, large pointed buds; vigorous grower and free bloomer; very hardy.

MARIE VAN HOUTTE—T—Large, cream center, pink, handsome pointed buds; strong grower, hardy.

MADAME EDOUARD HERRIOTT—PER—(Daily Mail) Produces many buds of beautiful reddish copper and coral tints; new and rare variety.

CLIMBING ROSES—Everbloomers

RED MARESCHAL NEIL—HT—Bright red, pointed bud; hardy.

REINE MARIE HENRIETTA—HT—Brilliant, cherry red; hardy.

WHITE MARESCHAL NEIL—T—Pure white, perfect buds and flower; vigorous grower; heavy foliage.

CLIMBING MARIE GUILLIOT—T—Pure white, large; hardy.

MARESCHAL NEIL—T—Lemon yellow, large globular, fragrant blooms; we graft these on hardy root stock.

DOROTHY PERKINS—Spring bloomer, pink; good for trellises.

FLOWERING DECIDUOUS SHRUBS

We recommend planting shrubs principally in groups or masses and for hedges or screens, planting against buildings, along fences and drives, and in every nook and corner. You should include some of the evergreen class. Crepe Myrtle, Althea, and other summer blooming shrubs will bloom prettier and grow more symmetrical if pruned severely every winter. Early glooming kinds should be pruned immediately after blooming.

	Price		
	each	dozen	100
Extra large, 3 year	\$.75	\$7.50	\$50.00
Medium size, 2 year50	5.00	35.00

ALTHEA—Flowers like roses, blooms all summer shrub or tree; hardy; colors: red, white and lavender.

CREPE MYRTLE—Very beautiful shrub, profuse and continuous bloomer; grows anywhere; very hardy; colors: watermelon red, lavender and pink.

DEUTZIA—Flowers double pure white, tinged with blush; strong upright grower; blooms early.

FLOWERING DOGWOOD—Cream flowers in clusters; large shrub or small tree; very attractive.

FORSYTHIA (Golden Bell)—Golden yellow, blooms early.

BUSH HONEYSUCKLE—Fragrant flowers, followed by showy berries; not at all climbing.

MOCK ORANGE—Free blooming, white flowers; early summer.

SCARLET QUINCE—Flowers brilliant scarlet; very early.

SPIREA VAN HOUTTE (Bridal Wreath)—The prettiest of spring bloomers; snow white, graceful, very hardy.

TAMARIX (Improxed Salt Cedar)—Very hardy, graceful.

VITEX—Flowers small, pale lilac in slender, paniced, erect racemes; foliage assumes autumn tints.

WEIGELAS—Rose pink flowers in great profusion.

CLIMBING VINES

HONEYSUCKLE—Evergreen; hardy, very fragrant flowers; 35 cents each.

CLEMATIS—Great profusion of white, star-shaped flowers; 50 cents each.

QUEEN'S WREATH—Immense clusters of rose-colored flower-bracts; comes from bulb each year; most vigorous grower; 35 cents each.

WISTERIA—Blue and white, early spring bloomers; hardy; 35 cents each.

(See climbing roses and grape vines in their classes).

SUMMER FLOWERING BULBS

(Priced at \$1.50 a dozen bulbs).

ANGEL LILIES—Large blooms, white veined red.

CANNAS—Green or bronze foliage; flowers all colors.

LEMON LILY—Lemon yellow flowers in great profusion.

YELLOW DAY LILY—Blooms continuously from August until frost.

TUBEROSE—Bulbs, 50 cents per dozen.

SHADE TREES

	Price	
	each	dozen
Heavy, 10 to 12 ft. trees	\$2.00	\$20.00
Branched, 8 to 10 ft.	1.00	10.00
Large, 6 to 8 ft.75	7.50
Medium, 4 to 6 ft.50	5.00

ELM—American Broadleaved; faster grower and more handsome than the native elm; upright form.

HACKBERRY—The fast growing kind.

BLACK WALNUT—Tennessee variety.

UMBRELLA CHINA—Well known trees; cut off half of new growth every year and wind will not break them.

ARIZONA ASH—Medium growth; thrives in any soil.

POPLAR (Lombardy)—Graceful, tall, slender; fine effect.

COTTONWOOD—Rapid grower on rich land; well known.

SYCAMORE—Upright habit; will stand any soil; hardy.

JAPANESE LIGUSTRUM—An evergreen, ornamental; white flowers in June followed by blue berries that last all winter; very desirable; this handles best with dirt on roots; priced balled and burlapped, 5 to 6 ft. trees @ \$1.50 each; \$15.00 dozen; 6 to 8 ft. trees @ \$2.00 each; \$20.00 dozen.

Pecan—See page 7.

ORNAMENTAL EVERGREEN DEPARTMENT

The most satisfactory evergreen shrubs for grouping, borders and foundation planting are: Photinia, Southern Laurel, Pyramidal, Arborvitae and Italian Cypress, for the higher effects. The Abelia, Coton-easter, Euonymous, Feijoa, Lucidum, Dwarf Golden Arborvitae, Bonita Arborvitae and the low growing Junipers for lower places. For trailing effects, the Jasmine Humile, Rosmary, Santolina and Trailing Junipers. For very low borders the Dwarf Euonymus is a plant that will never grow over ten inches high. For color contrasts, the Cotoneaster, Silver Euonymus, English Lavender, Feijoa, Nandina, Rosmary, Santolina, Dwarf Golden Arborvitae, Arizona Cypress, Silver Juniper and Cedrus Deodara.

For less expensive planting the bush Ligustrum, and Chinese Arborvitae for tall growth, with Amurensis for lower growth, with a few Euonymous to fill in with to finish the detail.

For hedges the Euonymous is the best. The Amurensis is a faster grower and less expensive. The Amurensis is used extensively either as a natural, graceful growth or sheared, for hedge or border work.

Windbreaks and screens use the Bush Ligustrum or the Chinese Arborvitae. For a more expensive job use the Southern Laurel, Pyramidal Arborvitae or the Arizona Cypress.

All evergreens listed here, unless noted otherwise, are balled and burlapped, being dug with a proper sized ball of earth around the roots. This ball is tightly wrapped with burlap. In all cases and circumstances plant burlap and all intact. Some of the difficult plants to transplant are pot grown. All this stock may be safely planted any month during the year, if properly cared for.

ABELIA—Flowers white flushed lilac pink. Blooms profusely and continuously from May to frost; foliage glossy green, turning to bronze during the winter; one of our best evergreens; very hardy.

2 yr., 1 to 2 ft.@ \$1.00 each; \$10.00 a dozen.

3 yr., 2 to 3 ft.@ 1.50 each; 15.00 a dozen.

4 yr., 3 to 4 ft., heavy@ 2.50 each; 25.00 a dozen.

BUTTERFLY BUSH—Flowers lilac, marked with yellow, bourne profusely; extremely fragrant; hardy. 2 yr., 3 to 4 ft., heavy@ \$1.50 each; \$15.00 a dozen.

BOXWOOD (Dwarf English)—Extremely slow growth.

12 to 18 inch@ \$2.00 each; \$20.00 a dozen.

18 to 24 inch@ 2.50 each; 25.00 a dozen.

CAPE JASMINE—Double white wax-like flowers; exquisitely fragrant; dark glossy foliage; low shrub.

18 to 24 inch@ \$1.50 each; \$15.00 a dozen.

24 to 36 inch@ 2.00 each; 20.00 a dozen.

COTONEASTER (Panosa)—White flowers, followed by many scarlet berries in winter; leaves ashy color on under sides, giving plant a grayish color effect; very graceful habit; medium size; very attractive.

18 to 24 inch@ \$1.50 each; \$15.00 a dozen.

2 to 3 feet@ 2.50 each; 25.00 a dozen.

3 to 4 feet@ 3.50 each; 35.00 a dozen.

ELAEAGNUS (Simonsi)—Erect shrub, medium size, silvery branches, leaves silvery beneath, giving a very pleasing and attractive color effect; hardy.

18 to 24 inch@ \$2.00 each; \$20.00 a dozen.

2 to 3 feet@ 3.00 each; 30.00 a dozen.

3 to 4 feet@ 3.50 each; 35.00 a dozen.

EUONYMUS (Japan)—Green, glossy foliage; upright habit; may be sheared in any form; medium size; hardy.

2 yr., 2 feet@ \$.50 each; \$ 5.00 a dozen.

3 yr., 3 feet@ .75 each; 7.50 a dozen.

4 yr., 4 feet@ 1.00 each; 10.00 a dozen.

EUONYMUS (Variagated)—Same as Japan, except leaves are striped with yellow. Same price as Japan.

EUONYMUS (Globe Shaped)—Grows very compact, globe shape, small leaves; upright habit, both green and silver variagated; handsome for formal effect.

12 to 18 inch@ \$1.25 each; \$12.50 a dozen.

18 to 24 inch@ 1.50 each; 15.00 a dozen.

EUONYMUS SILVER—Leaves have narrow margin of silvery white; compact, upright habit. Same price as Globe.

EUONYMUS (Trailing)—of trailing habit; dark green.

18 to 24 inch@ \$1.00 each; \$10.00 a dozen.

2 to 3 feet@ 1.50 each; 15.00 a dozen.

EUONYMUS (Dwarf)—Dwarf compact habit; leaves very small, dark green; fine for very low edging.

2 yr., 6 to 8 inch@ \$.50 each; \$ 5.00 a dozen.

FEIJOA—Silvery green leaves, spreading habit; flowers waxy petals, white beneath, purpling crimson on upper side; fruit delicious, mingling flavor of pineapple, raspberry and banana; imparts a very pleasing fragrance in a room; very hardy.

2 yr., 18 to 24 inch@ \$1.50 each; \$15.00 a dozen.

3 yr., 2 to 3 feet@ 2.00 each; 20.00 a dozen.

4 yr., 3 to 4 feet@ 3.00 each; 30.00 a dozen.

HYPERICUM (Gold Flower)—Low spreading habit; hardy.

2 yr., 2 feet@ \$1.25 each; \$12.50 a dozen.

YELLOW JASMINE—Flowers bright yellow in clusters; strong grower; very fine for low massing.

2 yr., 18 to 24 inch@ \$1.00 each; \$10.00 a dozen.

3 yr., 2 to 3 feet@ 1.50 each; 15.00 a dozen.

3 yr., 3 to 4 feet@ 2.00 each; 20.00 a dozen.

LAVENDER (English)—Very small shrub with gray downy foliage; very aromatic; blue flowers; hardy.

12 to 18 inch@ \$1.00 each; \$10.00 a dozen.
18 to 24 inch@ 1.50 each; 15.00 a dozen.

LEUCOPHYLLUM (Ceniza)—Purplish pink flowers; ashy gray foliage; native of Southwest Texas.
3 yr., 2 to 3 feet@ \$2.50 each; \$25.00 a dozen.

LOQUAT—Japanese evergreen plum; handsome, large, rough leaves; sturdy growth; vigorous habits.
2 yr., 18 to 24 inch@ \$1.50 each; \$15.00 a dozen.
3 yr., 2 to 3 feet@ 2.00 each; 20.00 a dozen.
4 yr., 3 to 4 feet@ 2.50 each; 25.00 a dozen.

LIGUSTRUMS

The Ligustrum group is composed of many types and varieties. The list below comprises the best varieties of each type, from the low dwarfs to the handsome tree forms, large and small leaf kinds and from silvery blue to the dark glossy leaved types.

AMURENSE—Best quick-growing hedge, small leaves, graceful without shearing; may be sheared to any form. 2 year, 3 feet, naked roots, for hedge, \$1.75 per dozen; \$10.00 per 100.

(Heavy Specimens, sheared).

2 to 3 feet@ \$1.00 each; \$10.00 a dozen.
3 to 4 feet@ 1.50 each; 15.00 a dozen.

(Heavy Specimens, natural growth)

3 to 4 feet@ \$.75 each; \$ 7.50 a dozen.
4 to 6 feet@ 1.00 each; 10.00 a dozen.
6 to 8 feet@ 1.50 each; 15.00 a dozen.

CALIFORNIA PRIVET—For hedges, naked roots.
2 yr., 18 to 24 inch @ \$1.25 per dozen; \$6.00 per 100.

JAPAN BUSH FORM—White flowers in June, followed by blue berries; glossy green foliage; vigorous grower; hardw; used for screens or wind-breaks.

2 yr., 3 to 4 ft., medium @ \$.75 each; \$ 7.50 a dozen.
3 yr., 4 to 6 ft., heavy @ 1.00 each; 10.00 a dozen.
4 yr., 6 to 8 ft., heavy @ 2.00 each; 20.00 a dozen.

TREE LIGUSTRUM—See shade trees on page 10.

LUCIDUM (Wax Leaf)—One of the handsomest of the broadleaved evergreens, medium size, compact, graceful habit, dark green, glossy leaves, with white flowers in June; valuable for massed effect, or single specimens; very desirable; hardy.

18 to 24 inch@ \$1.50 each; \$15.00 a dozen.
2 to 3 feet@ 2.00 each; 20.00 a dozen.
3 to 4 feet@ 3.00 each; 30.00 a dozen.

VARIAGATED WAX LEAF (Iwata)—More dwarf than Lucidum; leaves blotched. Same prices as Lucidum.

VELVET WAX—Dwarf compact habit, leaves very dark, pointed, silvery green underside which forms a distinct silver margin. Price same as Lucidum.

HENRYI—Medium small, dark, glossy leaves, graceful arching branches; medium growth. Price same as Lucidum.

UPRIGHT (Gracile)—Similar to Lucidum, only being of upright, compact habit.

2 to 3 feet@ \$1.50 each; \$15.00 a dozen.
3 to 4 feet@ 2.00 each; 20.00 a dozen.
4 to 5 feet@ 3.00 each; 30.00 a dozen.
5 to 6 feet@ 4.00 each; 40.00 a dozen.

BIG LEAF—Exceptionally large leaves, dark green glossy; upright vigorous grower; valuable for prominent places in good plantings; hardy. Priced same as Upright.

GOLDEN LEAF—Same habits as Big Leaf, except golden foliage; fine for color effects. Priced same as Big Leaf.

EVERBLOOMING (Quihoi)—Panicles of fragrant blossoms, borne profusely from May to frost; medium small blue-green leaves; grayish wood; graceful and vigorous grower; valuable for color effects.

3 to 4 feet@ \$1.00 each; \$10.00 a dozen.

4 to 6 feet@ 1.50 each; 15.00 a dozen.

WEeping (Pendula)—Vigorous grower, medium small leaves; very graceful weeping habit; very hardy. Priced same as Everblooming.

DWARF AMURENSE (Reevesii)—Small leaves, very compact, slow growth; very hardy.

2 to 3 ft., sheared plants @ \$1.50 each; \$15.00 a dozen.

3 to 4 ft., sheared plants @ 2.00 each; 20.00 a dozen.

DWARF WAX (Lodense)—Very slow, compact, formal growth; medium small dark green leaves; very hardy.

12 to 18 inch@ \$1.50 each; \$15.00 a dozen.

18 to 24 inch@ 2.00 each; 20.00 a dozen.

ENGLISH LAUREL—A fine shrub with broad, shining foliage and creamy white flowers, followed by purple berries; slow habit; stands hard freezes.

18 to 24 inch@ \$2.00 each; \$20.00 a dozen.

24 to 36 inch@ 3.00 each; 30.00 a dozen.

36 to 48 inch@ 5.00 each; 50.00 a dozen.

SOUTHERN LAUREL (Cherry)—Pyramidal upright habit; firm dark green leaves; small fragrant flowers, followed by glossy, greenish-black fruits; hardy.

3 to 4 feet@ \$2.50 each; \$25.00 a dozen.

4 to 5 feet@ 3.50 each; 35.00 a dozen.

5 to 6 feet@ 4.50 each; 45.00 a dozen.

6 to 8 feet@ 6.00 each; 60.00 a dozen.

MAGNOLIA—Well known evergreen. We grow these either tree form or bush form; very desirable; hardy.

2 to 3 feet@ \$2.00 each; \$20.00 a dozen.

3 to 4 feet@ 3.00 each; 30.00 a dozen.

4 to 6 feet@ 5.00 each; 50.00 a dozen.

6 to 8 feet@ 7.50 each; 75.00 a dozen.

ROMAN MYRTLE (Comm)—Foliage shining green, highly aromatic; small white flowers; black berries; dwarf.

18 to 24 inch@ \$1.50 each; \$15.00 a dozen.

24 to 30 inch@ 2.00 each; 20.00 a dozen.

SMALL LEAF MYRTLE (Micro.)—Same as above—except smaller leaves and more dwarf habit.

12 to 18 inch@ \$1.50 each; \$15.00 a dozen.

18 to 24 inch@ 2.00 each; 20.00 a dozen.

NANDINA (Japanese Queen's Feather)—Beautiful upright dwarfish habit; foliage rich red when young, dark green when mature, assuming beautiful coppery tones in winter, covered with bright red berries; assumes brighter colors if planted in a sunny place; very desirable for color scheme in any planting; perfectly hardy anywhere.

12 to 18 inch (single stem plants)

@\$1.50 each; \$15.00 a dozen.

18 to 24 inch (single stem plants)

@\$2.00 each; \$20.00 a dozen.

18 to 24 inch (2 stems and up)

@\$2.50 each; \$25.00 a dozen.

24 to 36 inch (2 stems and up)

@\$3.00 each; \$30.00 a dozen.

18 to 24 inch (heavy specimens)

@ \$4.00 each; \$40.00 a dozen.

24 to 36 inch (heavy specimens)

@ \$5.00 each; \$50.00 a dozen.

PHOTINIA—Handsome strong growing shrub; leaves large, deeply serragated, glossy green with reddish hue when small; upright habit; very striking; hardy.

2 to 3 feet \$2.00 each; \$20.00 a dozen.

3 to 4 feet 3.00 each; 30.00 a dozen.

4 to 5 feet 4.00 each; 40.00 a dozen.

PITTOSPORUM (Tobiri)—Dense globular shrub, dark glossy green foliage; small white flowers resembling orange blossoms; subject to hard freezes; hardy at San Antonio and to the South.

18 to 24 inch@ \$2.00 each; \$20.00 a dozen.

2 to 3 feet@ 3.00 each; 30.00 a dozen.

EVERGREEN HAWTHORN (Pyracantha)—Identical in flower and fruit as Hawthorns, except evergreen; showy berries during the winter; perfectly hardy.

2 to 3 feet@ \$2.00 each; \$20.00 a dozen.

3 to 4 feet@ 3.00 each; 30.00 a dozen.

ROSMARY—Dwarf, leaves highly aromatic, slight grayish color; small lavender color flowers; very hardy.

12 to 18 inch@ \$1.00 each; \$10.00 a dozen.

18 to 24 inch@ 1.50 each; 15.00 a dozen.

LAVENDER COTTON (Santolina)—Much used in old fashioned gardens as very low border; silver gray foliage; very hardy. Price same as Rosmary.

EVERGREEN SUMAC—Very hardy, low shrub, native; foliage assumes deep autumn colors; very desirable.

2 to 3 feet@ \$2.00 each; \$20.00 a dozen.

3 to 4 feet@ 3.00 each; 30.00 a dozen.

VIBURNUM (Odoratis)—Stout, upright, bushy shrub; large shiny leaves, white flowers, red berries later.

2 to 3 feet@ \$2.50 each; \$25.00 a dozen.

VIBURNUM (Rhydo)—Erect medium habit, long, rough, dark leaves, with copper color on tender growth; odd, very rare and attractive; very hardy.

18 to 24 inch@ \$2.00 each; \$20.00 a dozen.

2 to 3 feet@ 3.00 each; 30.00 a dozen.

3 to 4 feet@ 5.00 each; 50.00 a dozen.

CONIFERS

We have the very choicest of varieties for the Southwest. All **CUTTING** grown or **GRAFTED**—NOT SEEDLINGS. They should be well watered and cared for the first year. Then they are drouth proof and hardy.

Arborvitaes

DWARF GLOBE (Bonita)—Very slow, compact dwarf habit; dark green foliage, globe shape; very desirable for urns, pedestals, etc.

12 to 18 inch@ \$2.00 each; \$20.00 a dozen.

18 to 24 inch@ 2.50 each; 25.00 a dozen.

24 to 30 inch@ 3.50 each; 35.00 a dozen.

DWARF GOLDEN (Aurea Nana)—Dwarf habit, compact and symmetrical; tips of all branches assume golden tints; the most popular of the Arborvitaes.

18 to 24 inch@ \$2.00 each; \$20.00 a dozen.

24 to 30 inch@ 2.50 each; 25.00 a dozen.

30 to 36 inch@ 3.00 each; 30.00 a dozen.

36 to 42 inch@ 4.00 each; 40.00 a dozen.

42 to 48 inch@ 5.00 each; 50.00 a dozen.

COMPACTA—Of compact pyramidal habit; symmetrical outline; dark green foliage. Same as Dwarf Golden except color. Priced same as Dwarf Golden.

PYRAMIDAL—Dark green foliage; tall, slender pyramidal habit; more vigorous grower than others.
 3 to 4 feet@ \$2.50 each; \$25.00 a dozen.
 4 to 5 feet@ 3.50 each; 35.00 a dozen.
 5 to 6 feet@ 5.00 each; 50.00 a dozen.

CHINESE (Seedlings)—Used for windbreaks or screens.

4 to 5 feet@ \$1.00 each; \$10.00 a dozen.
 5 to 6 feet@ 1.50 each; 15.00 a dozen.
 6 to 8 feet@ 2.50 each; 25.00 a dozen.

CYPRESS (Arizona)—Handsome tree with brilliant silver-blue foliage; robust habit.

2 to 3 ft., grown in pots @ \$2.50 each; \$25.00 a dozen.
 3 to 4 ft., grown in pots @ 3.50 each; 35.00 a dozen.
 4 to 5 ft., grown in pots @ 5.00 each; 50.00 a dozen.

CYPRESS (Italian Pyramidal)—Tall, slender tree having a pillar or column effect; our trees are GRAFTED; true narrow type, grown in pots.

2 to 3 feet@ \$3.00 each; \$30.00 a dozen.
 3 to 4 feet@ 4.50 each; 45.00 a dozen.
 4 to 5 feet@ 7.00 each; 70.00 a dozen.
 5 to 6 feet@ 10.00 each; 100.00 a dozen.

Also have field grown select seedlings at much cheaper prices.

CYPRESS (Horizontal)—Tall tree with spreading horizontal branches. Priced same as Arizona Cypress.

CEDRUS (Deodara)—Magnificent and stately tree; towering pyramidal form; graceful foliage; beautiful silvery green; very desirable; hardy.

2 to 3 feet@ \$5.00 each; \$50.00 a dozen.
 3 to 4 feet@ 7.50 each; 75.00 a dozen.
 4 to 5 feet@ 10.00 each; 100.00 a dozen.

ATLANTIC CEDAR—Same as above, except dark green foliage, and more rugged habit. Priced same as above.

JUNIPERS

1 to 2 feet@ \$2.50 each; \$25.00 a dozen.
 2 to 3 feet@ 3.75 each; 37.50 a dozen.
 3 to 4 feet@ 5.00 each; 50.00 a dozen.

TRAILING (Prostrata, Tamarisifolia, and Procumbens)—Low growing, prostrate, trailing habit.

HORIZONTAL (Pfitzers and Sabina)—Very graceful low growing shrub or dwarf habit.

PYRAMIDAL (Hills Silver and Excelsa)—Of conical form, well branched compact habit.

VARIAGATED—Same as Excelsa, except foliage is profusely tipped with creamy white branches.

PALMS

18 to 24 inch (well branched)
 @ \$1.50 each; \$15.00 a dozen.

2 to 3 feet (2 to 4 inch caliper)
 @ \$2.50 each; \$25.00 a dozen.

3 to 4 feet (4 to 6 inch caliper)
 @ \$4.00 each; \$40.00 a dozen.

CANARY DATE (Phoenix C.)—Pinnate leaves. The most ornamental of palms.

GIANT PALMETTO (Blackburn Sabal)—Far more massive in trunk and leaves than any other palm.

CABBAGE PALMETTO (Texas Sabal)—A hardy palm. Erect trunk with large head of fan leaves.

FAN PALM (Wash. Filefera)—The most hardy palm. Very tall, stout trunk. Large fan shaped leaves, with numerous whitish filaments.
